THE JEFFERSONVILLE RAILROAD TO BE SOLD OCT.—At a meeting of the Jeffersonville railroad second mortgage bondholders, held in in New York, November 5th, 1858, $260,000 bonds represented, Mr. de Comeau, of the firm of De Rham & Rham & Co., chairman, Mr. O. von Hoffman, of the firm of L. von Hoffman & Co., secretary, the following, among other resolutions, was adopted, after declaring that the company had acted in bad fath, by virtually paying dividends on stock to the city of Louisville, while leaving mortgage coupons unpaid:

That unless the overdue coupons are paid by or before the expiration of the sixty days' grace stipulated in mortgage, or satisfactory arrangement therefor, before the 1st of December next, the trustee, James Punnett, Esq., be, and he is hereby called upon to act in accordance with the terms of the mortgage, to-wit: Shall demand and take possession of the road and its appurtenances, and act therewith according to terms of mortgage; and in case possession be refused him, he shall apply for Receiver, and in case the court refuse same, he shall foreclose, and apply for decree of sale, all according to the terms of mortgage.

BIRCH AND BOWERS' MINSTRELS.—This excellent band of minstrels, as we anticipated, drew a very large audience at the Masonic Temple. The large hall was well filled, in fact—an event that rarely occurs on such occasions. Birch and Bowers' minstrels are rather an exception to entertainments of this kind, and we were not, therefore, surprised. Their performance was decidedly amusing and interesting, consisting of songs, humorous and pathetic, instrumental music, fine dancing, a laughable burlesque, and the inimitable Birch. He is himself, in fun and humor, equal to a dozen respectable artists. The minstrels give another of their unique and capital entertainments this evening.

FIRE LAST NIGHT.—About midnight the two story brick warehouse, on the alley back of Third street, between Main and Water, Second and Third, was discovered in flames. The alarm was quickly given, but the fire had too much headway to be checked, and the building and contents were soon destroyed. It is situated just in the rear of the great Third street fire, and had been used as a tobacco cutting factory, by H. Forsyth. A couple of horses stabled in the lower part of it were taken out safe. The fire was supposed to be the work of an incendry.

THEATER.—The sisters Western wear with the patrons of the drama here, it would seem, for "The Fast Men" attracted a good house last night. The piece was played unusually well, Miss Lucille enacting her part with spirit and vivacity.

To-night the "French Spy," with all its thrilling scenes and effects, is presented, together with one act of the "Fast Men"—a bill calculated to fill the theater, we should think.

TOBACCO INSPECTION.—We believe that buyers and sellers have agreed to a compromise in the inspection and sales of tobacco at the auction warehouses. By this arrangement the regular auction sales go on as heretofore, and farmers need be under no apprehensions of loss or delay in the sale of their tobacco. The Inspector appointed by the council has consented to retire.—That is right.

ACCIDENTALLY SHOT.—A lady accidentally discharged a pistol at her husband, in a boarding house, on Sixth street, yesterday. The ball entered his mouth, knocked out two teeth, cut a piece of his tongue off, and, passing downwards, lodged in his throat. Although badly injured it is thought he will recover.

MOUND CITY.—The next sale of lots in this new, thriving, and important city occurs on Thursday, November 25th. We know of no position on our Western waters where the opportunity for investment is so great. Those who wish to attend the sale can take boats here on Saturday or Monday and reach their destination in ample time.

SIGN PAINTERS.—Who would not let their business be known, so that those who run may read and learn? There is something indicative of a business man's taste in his sign. In our city Messrs. Clarke & Spurrier are taking the lead in this department of business. They are skillful workmen, energetic men, and worthy of the extensive patronage which they are obtaining.

COAL OIL LAMPS.—Those of our citizens who are beyond gaslight, will appreciate the convenience and excellence of such illumination as Messrs Hardy & Robinson afford. Their coal oil lamps are of every description, afforded cheap, and suited to parlor, store, and kitchen use. Call and see Messrs. H. & R., at No. 6 Masonic Temple.

Captain Sullivan, of the accommodation train, on the Louisville and Frankfort Railroad, with several other gentlemen, were on a hunting excursion in Indiana last week. They did not find game very abundant, but killed one deer and a number of wild ducks. We are indebted to Capt. S. for a specimen of the venison, and found it was not at all hard to take.

KIDNAPPED.—Frank Carr, alias Pete Porce, was kidnapped by an officer from Jeffersonville, yesterday, and taken back to that city. As he is accused of robbing a house there, and we don't want such fellows here, officers from that side of the river can kidnap as many chaps of that kind as they please. We sha'n't ask the Governor for a requisition in such cases.

DEATH OF A VENERABLE LADY.—Mrs. Susan McClung, relict of Hon. Wm. McClung, and mother of Rev. John A. McClung, and the celebrated Col. McClung, of Mississippi, died in Maysville, on the 2nd inst. She was the daughter of Col. Thomas Marshall, of revolutionary memory, and a sister of the distinguished John Marshall, Chief Justice of the United States.

NEW AGENT.—A. B. Barker, now that our excellent friend Norton has resigned, is the general ticket agent of the New Albany and Salem railroad. He will always be found at his post in the Main street office.

Prentice, of the Louisville Journal, some time since was endeavoring to induce the American party of the South to an *honorable* fusion with the Black Republicans of the North, but the Republicans wouldn't come in under the name of "Americans." It is arranged that the Republicans can retain their name at the North, while their allies, the Americans of the South, led on by the Journal and its satellites, rally under the cognomen of "Opposition." We call upon some one of the opposition press, to answer the following questions:

1. What is the present so-called "opposition" party of Kentucky opposed to?
2. Do they profess to oppose the principles and creed of the Democratic party?
3. If they do, upon what principle do they profess to oppose it?
4. If they oppose the Democratic party, are they not affiliating with the Black Republicans?
5. And if they are not affiliating with the Black Republicans, what are the aims and advantages to be derived, if the so-called "opposition" should be successful?
Sixth—If successful, where do they expect to get the northern wing of their party?
Seventh—Can the "opposition" be a national party without a national wing, and if they have a Northern wing will not that wing be the Black Republicans?

We hope there is some one of the opposition editors in the State of Kentucky who are bold enough to take up the above interrogatories and answer them separately. We ask for information.—*Owensboro Democrat.*

BANKS WINDING UP.—The Indianapolis Journal of yesterday says:

The proceeds of the Bank of the Capitol, Indianapolis, are exhausted, and nothing is left to redeem its outstanding circulation. The amount unredeemed is very small—not reaching $300, perhaps. The proceeds of the Farmers' & Traders' Bank, of Indianapolis, are also exhausted. Its outstanding circulation is very small—less than that of the Bank of the Capitol. The proceeds of the Bank of Rochester are also exhausted. The amount of its outstanding circulation is unknown, but cannot be very large. The issues of each of these three banks are worthless.

The official majority for Cooper, Dem., in the first congressional district of Michigan, is seventy-five votes. Howard, the Republican Congressman who was defeated, was one of the "Smelling Committee" which was sent to Kansas by the Republican House of Representatives in 1856, to make political capital for the Fremont campaign. He has at length got his reward.

WISCONSIN.—In the third district of Wisconsin the majority for Larrabee, Dem., for Congress, is over 1,600. In the second district Washburne, Rep., is elected by about 1,500. The Republican majority in the whole State is less than 3,000. In 1856 it was about 20,000.

JAILER'S CONTESTED ELECTION CASE.

THE DECISION AGAINST BATMAN.

Judge Muir, of the circuit court, yesterday read his decision in the cause relating to the jailer's contested election, of Thos. Batman vs. W. K. Thomas, the present incumbent. The decision has been looked to with interest, and will command the attention of the public. This is the decision:

THOMAS BATMAN VS. E. GARLAND, ETC., AND THE SAME VS. MONROE, ETC.—These causes were, by consent of parties, heard together. The facts were mainly agreed, and are substantially as follows, to wit:

On the 2d of August, 1858, an election was held for the offices of county judge, county court clerk, sheriff, coroner, and jailer, of Jefferson county. The former incumbents were all candidates for re-election, and the sheriff, county court clerk, and coroner, were re-elected. The former county judge was defeated, and the defendant, Monroe, elected in his stead. The petitioner, Thomas Batman, Wm. K. Thomas, and Richard Phillips, were candidates for the office of jailer. The poll books show that Batman received 3,644 votes, that Thomas received 3,581 votes, and that Phillips received 58 votes. These numbers include the votes set down upon several pages of the poll books, which pages were "not signed by the clerk at the foot thereof," as directed by the statute. If those pages are excluded from the count, then Batman received 3,214 votes, and Thomas received 3,216 votes. By the first mode of computation, Batman received a majority of sixty-three votes; by the second mode of computation Thomas received a majority of two votes.

A certificate of election was given to Thomas, but Batman insists that he received a majority of the votes cast at that election, and was, therefore, duly elected, and is entitled to the office of jailer of Jefferson county. He insists 1st, That the certificate given to Thomas is void, because it was not given by the proper officers. 2d, That it was, and still is, the duty of the county judge, the sheriff, and county clerk, to compare the polls and give him a certificate of his election. And they having failed to act in the premises, he has moved for the writ of mandamus to compel them to discharge that duty.

He also gave notice to Thomas that he would contest the election, and a contesting board was organized, as provided by law, composed of A. Monroe, County Judge, C. M. Thruston, County Court Clerk, and W. Lynn, a Justice of the Peace. That board decided that he had not given his *notice in the time* required by the statute, and, therefore, quashed his motion. He insists that his notice was given in due time, and if it was, therefore, the duty of said board, and is still their duty, to hear his motion and determine upon the facts, the rights of the parties. He has, therefore, moved for the writ of mandamus against them also, to compel them to hear his motion, and determine who is entitled to the office of jailer.

To the first petition the defendants, Thruston, county court clerk, and Megowan, sheriff, have responded that they were candidates, and were voted for at that election, and thus interested in the fact or issue to be found or determined, and could not, therefore, lawfully act in comparing the polls. Besides, Thruston responds (and the fact is conceded) that at the time when the law required that the polls should be compared, he was confined to his bed by sickness, and was, therefore, unable to act. The late county judge responds that he was willing to act, and did act with the two justices, Clement and Matlack, until they resolved to exclude from the computation of votes such pages of the poll books as had not been signed "at the foot thereof" by the clerks. Differing from them on this proposition he retired from the board and declined further to act. This he did with apparent, and, it may be added, with pardonable disgust.

To the second petition the defendants, Monroe, county judge, Thruston, county clerk, and Lynn, justice, have responded that the notice to contest the election was not given within ten days after the final action of the board of examiners, as required by the statute, and that, therefore, they had no *authority* to hear and determine the plaintiff's motion.

Such are the leading facts, and such the objects of these proceedings. It is obvious that the questions arising upon these facts are of the highest interest to the parties and to the public. These questions have been argued by the learned counsel on either side with great earnestness and signal ability. For this, and other sufficient causes, it has been deemed not inappropriate to present as briefly as may be, the reasons which have produced the judgment now about to be rendered.

Upon the first petition, three questions are presented: 1st. Has the plaintiff adopted his true and appropriate remedy? 2d. Had he, when he filed his petition, a clear legal right to the office into which he desires to be inducted?—And 3d. Was it the legal duty of the defendants to compare the poll books, and give their certificate of his election? If these questions may all be answered in the affirmative, then judgment should be rendered for the plaintiff.—If any one of them may be answered in the negative, then his motion should be denied, and his petition dismissed. And these questions will now be considered in the order above stated.

1st. Has the plaintiff adopted his true and appropriate remedy? This proceeding is, from its nature, very unusual. The writ of mandamus is not a writ of right. It may be granted only in extraordinary cases, and, as a general rule, will never be granted to a party who has otherwise an adequate legal remedy. It is, in the language of Lord Mansfield, "a very beneficial writ, and the best method of preserving it, is to be sparing in the use of it." In England, the power to grant it belonged exclusively to the Court of King's Bench, and hence it was there beautifully styled one of the "*flowers* of that court." This may account for the unusual interest of Lord Mansfield in this writ, and explain the caution with which he is said to have dispensed it. He took especial pains, upon all proper occasions, to state the true grounds upon which it should be granted or refused; and for this reason his opinions upon this subject have been followed wherever the writ has been beneficially used. Indeed, it is difficult to find a case, since he left the King's Bench, that was not based upon rules laid down by him. One of those rules, and one which has been adopted by our own appellate court, and by courts almost universally, is that the writ should never be granted except in the absence of other adequate legal remedies. It should be preserved and used as the suppletory means of substantial justice.—The Court of King's Bench used it only as suppletory to the defects of other jurisdictions.

But this rule is often misunderstood. When it is said that there must be an absence of other legal remedies, courts must be understood to mean remedies against the *defendant*. That the prosecutor may have other remedies against other parties, connected directly or remotely with the subject of the controversy, is no reason for withholding the writ. He must have some other adequate legal remedy against the *party sued*. It is not, therefore, as contended by defendant's counsel, a sufficient reason for refusing the writ in this case, that the plaintiff might have contested the election with Mr. Thomas. The real question is, has he any other adequate legal remedy against *these* defendants. If it was their duty to convene as a board, compare the polls and give certificates of election, and they have, without good cause, failed to discharge that duty, what remedy has the plaintiff against them, except that which he has adopted? None has been suggested, and in the opinion of the court, none can be suggested. It follows, therefore, that he has adopted his only, and therefore his true and appropriate remedy, if he has such a right, as can now be enforced. And this brings us to the second question:

2. Had the plaintiff, when he filed his petition, a clear legal right to the office into which he now seeks to be inducted?—If he was voted for by a majority of the qualified voters of the county, at a regular election, held according to law, then, under the constitution of the State, he was duly elected, and by virtue of that election was entitled to the office, and, therefore, to a certificate of election as the evidence of this right. If he did not receive such a majority, as a matter of course, he had no such right.—Now, according to the agreed facts, and, indeed, according to the response of Megowan and Thruston, the poll books, as returned to the clerk's office, show that Batman received *sixty-three* votes more than his competitor, Thomas. But a portion of the poll books was excluded by justices Clement and Matlack, whereby a different result was produced. This was done upon the following provision of the statute upon elections: "Each clerk, in the presence of the judges, shall sign his name at the foot of every page of the poll book, as the election progresses, so that the same may be thereby identified."

It can scarcely be necessary to say that this provision of the statute is merely *directory*. It ought, as an act of duty, to have been followed, but it would be almost absurd to conclude that a candidate should be deprived of his votes, and of the office to which he might be chosen, simply because the clerk has failed to discharge this duty. It is due to defendant's counsel to say that in the argument of the various questions presented by these motions, they have not contended that these votes should have been excluded.—They ought not to have been excluded.

But it is said that at some of the voting precincts the place of voting was changed on the day of election; that some one of the judges was not sworn, and that all the votes taken at such places, and by such judges, should be excluded; and that by the exclusion of these votes the result will be so changed as to give Thomas a majority. The statute provides that for good cause the place of voting may be changed, on the morning of the election, to the "most convenient place" which can be found by the judges, public proclamation of such change being first made. Whether, in this case, the adjournment was to the most convenient place, or whether there existed sufficient cause for it, I will not stop to inquire. It is sufficient that in all such cases the election was held at convenient public localities, and it does not appear, that by reason of the change, any citizen was deprived of his vote. Besides, it is to be presumed that the officers discharged their duty, and therefore, that in *their judgment* there existed sufficient cause for the adjournment, and that the place selected was the one deemed most convenient by them. And the fact that no inconvenience has resulted to the public, and that no man has been deprived of his vote by the change, proves that they did not materially err in their conclusions. It would not, therefore, be proper to exclude any poll book for such reason. Nor should any importance be attached to the fact that *one* of the judges at some one of the precincts acted without having been sworn. A construction of the statute which would require the exclusion of poll books for such reasons, instead of fostering and protecting the right of suffrage, would tend to defeat, and practically, destroy it. "De minimis non curat lex," is a maxim which applies with equal force to the failure of the clerks to sign their names "at the foot of each page of the poll books," to the failure of one of the judges to be sworn, and to any immaterial irregularity in the adjournment by the judges from one voting place to another. They all stand upon the same ground. In themselves they are too inconsiderable and unimportant to be allowed to defeat great and important rights. It is, therefore, the opinion of the court that Batman received a majority of the votes cast for the office of jailer, at the last August election, and that a certificate should have been given him. And if it was the *legal duty* of the defendants to give him that certificate, such judgment should be rendered as would *compel* them to discharge that duty. This brings us to the third question.

3d. Was it the legal duty of the county judge, county court clerk, and sheriff, to compare the poll books and give certificates of election?

As this matter is regulated entirely by the statute, the inquiry can only be answered by reference to the statute itself. It reads as follows:

"The presiding judge of the county court, the clerk thereof, and the sheriff, or other person acting for him at an election, shall constitute a board for examining the poll books of each county, and giving certificates of election. Any two of them may constitute a board; but, if either is a candidate, he shall have no voice in the decision of his own case. If, from any cause, two of the before named persons cannot, *in whole or in part*, act in comparing the polls, their *places* shall be supplied by the two justices of the peace who may reside nearest the court house."—Rev. Stat. 288.

It will be recollected that the county judge, clerk, and sheriff, were all candidates for re-election, and the poll books show that they were all re-elected except the county judge. It is unnecessary to inquire whether other provisions of the statute do not forbid the sheriff from acting as a member of this board, and from discharging any duty pertaining to an election, when he is a candidate. It is certain that he can discharge no other duty, and it is, to say the least, extremely doubtful whether he could act at all as a member of the examining board. If this should be the case, then, as the clerk was unable to act on account of sickness, the petition ought at once to be dismissed. But, as before remarked, this construction of the statute is somewhat doubtful, and it will be assumed, therefore, that the duties and powers of all three are the same.

The whole difficulty grows out of the fact that they were all candidates. If they had not been, it would undoubtedly have been their duty to convene as a board, compare the polls, ascertain the "correctness of the summing up of the votes, and gives triplicate or more written certificates of election, etc." Any two of them might have constituted a board. And if only *one* of them had been a candidate, he might, notwithstanding that fact, have acted as a member of the board; but he could have had "no voice in the decision of his own case." "*In part*," he could not have acted. Was not this the condition of each one of the defendants? All three of them being candidates, *one* of them could act "*in whole*," but *all* of them were disqualified "*in part*." Now what is the consequence of this state of things? The statute (supra) has provided for just such a contingency. The language is that "if from any cause, two" of the three cannot, *in whole or in part*, act "in comparing the polls, their places should be supplied by the two justices of the peace who may reside nearest the court house." Here not only two, but all three were disqualified "*in part*;" for neither of them could have a "voice in the decision of his own case!" The plain and obvious meaning of the statute, is, that at least *two* (being a majority) of the board shall be disinterested. That they shall not be interested "in whole or in part," and thus be left without inducement to form fraudulent combinations. This is further evident from the fact, that although two are required to withdraw, the third, though interested, may remain in the board and act in connection with the justices, the statute only requiring that at least a majority shall be disinterested. But it is contended, that even if the defendants could not have acted in their own cases still they should have acted in the cases of other candidates, and then given away to the two justices. The statute will not admit of such a construction. But one board is contemplated. This was necessary in order to uniformity in the certificates. Whenever two of the number are unable from any cause to act, "in whole or in part" their "*places*" are to be supplied by others. They lose their places, or in other words, their membership in the board, and the law plainly requires that a new board shall be formed.

It need scarcely be added that there was an obvious impropriety in the defendants acting as members of an official board, convened alone to determine facts in which they all had an important personal and pecuniary interest. "*Nemo in sua causa judex debet esse*," is a maxim which applies here as well as elsewhere. And if the statute had not in terms forbidden their participation in this matter, it is by no means certain that they might not in this case have answered satisfactorily, "we could not act as judges in our own causes." For, as was well said by defendants counsel, "the law never requires of a gentleman that which a gentleman cannot do."

But it is contended that the certificate given by Messrs. Clement and Matlack is void, because they were not the two justices "who *resided* nearest to the court house." It seems that although they are the justices of the district in which the court house is situated, and have their offices within fifty yards of the court house, it has been ascertained that one of the justices of another district "resides" a few feet nearer to the court house than they do. Suppose this to be true, and that the two justices had no power to act, does it thence follow that it was the duty of *these defendants* to act? The question is not whether Messrs. Clement and Matlack had authority to act, but whether *these defendants* are in duty *bound* to act. It is, therefore, unnecessary to decide whether within the spirit, intent, and real meaning of the statute, they were the two justices who ought to have acted. It is sufficient here that it was the duty of some two justices, either these or others, and, therefore, not the duty of the defendants. It follows from what has been said, that the defendants were not competent members of the examining board, and that they cannot be required by writ of mandamus to discharge duties which they were legally disqualified from performing, and which the law has devolved on other officers.

The motion against the contesting board presents but two questions, and these will now be briefly considered:

1 Has this court the power, by writ of mandamus, to compel the contesting board to hear and decide the motion of the plaintiff, if it was their duty to have done so?

2. Was it the duty of the contesting board to hear and decide the motion? As this question must be answered in the negative, a discussion of the first question is unnecessary. If the *notice* was not given in time, the board could not take jurisdiction of the case. If, on the other hand, it was given in time, the law required that they should hear and determine the contest. So that the real question is: did the plaintiff give his notice in the time allowed by the statute? That was the only question decided by the board, and the only one they had the power to decide, if their opinion was correct. The statute requires that the notice shall be given "within ten days after the final action" of the examining board. It was not given until the eleventh day after such "final action," if the day on which the board finished their labors is to be counted. And whatever conflict of opinion may exist in other States, as to the propriety of including that day in the computation, there is no room for doubt as to what the law is in Kentucky.

The court of appeals, in the late case of Smith vs. Chiles, have decided that in all such cases it must be included. "When the computation is to be made from an *act* done, the day in which the act was done must be included, because since there is no fraction in a day, the act relates to the *first moment* of the day in which it was done." 13th Ben Monroe, 461. And why should it not be so? The "final action" of the board was on the 6th day of August. He had the right to give his notice *on that day*, and, therefore, it should be taken into the computation. But it is unnecessary to discuss a point already, and so recently, settled by the appellate court. That court may have decided the question wrong. But whether they have decided it right or wrong their decision must remain the law of the State until they shall think proper to overrule it. The contesting board could not disregard the authority of that opinion. Neither can this court disregard it. It is the law of the State. Such was the decision of the defendants, and, therefore, they dismissed the plaintiff's motion. Having discharged their duty, according to law, it follows that there can be no just cause of complaint against them, and, therefore, the writ of mandamus must again be denied.

The peculiar circumstances which have produced this litigation have not been overlooked.—That wrong and injustice have been done, it is impossible to deny; but it should be remembered that the defendants to these motions are in no wise to blame for it. They have not, in any degree, contributed to that result which is so justly the subject of complaint. They have not failed in their duties, and should not be held responsible for the wrongs of others. For these wrongs Mr. Batman was not without remedy. He was not bound to submit to the palpably erroneous and unjust judgment of the two justices. The law gave him a remedy which was plain, easy, and adequate. He had only to give notice, as before indicated, and the statute provided a tribunal to try his cause. If he failed to do this, and thus lost his remedy, the fault was his, and his only.

This court has no power to revise the judgment of the examining board, or to induct Mr. Batman into office. Mr. Thomas, the present incumbent, is not a party to these proceedings, and, therefore, no valid judgment could be rendered against him. Such contests should never, if it could be avoided, be brought before the ordinary tribunals of justice. The Legislature has wisely provided other tribunals to settle and adjust the conflicting claims of candidates for this and all other county offices. First, they have a board to compare the polls, and give certificates of election—and next, if either of them shall be dissatisfied, an appeal can be taken to a contesting board, before which both claimants may appear with their proof, and either with or without counsel. It was manifestly intended that these boards should have exclusive jurisdiction of such contests, and that their action should be final. Such was the judgment of the Supreme Court of South Carolina upon just such a statute as ours. (Grier vs Shackelford, 2d S. C. con. rep. 642. And such has been the construction of the statutes by our own appelate court. In the case of Newcum vs. Kirtley, (13th Ben. Monroe 517) that court used the following language: "We are satisfied that the very purpose of providing these boards was to prevent the ordinary tribunals of justice from being harrassed, and indeed, overwhelmed with the investigations and involved in the excitement to which these cases may be expected to give rise, and that their decisions, so far at least as regards the questions of fact touching the number and legality or illegality of votes given for the respective candidates, was intended to be final." In that case the court refused to go behind the certificate of the board; but treating that as conclusive between the contestants, gave judgment upon the facts therein stated.

In this case the certificate of the two justices is in the language of the act, and in fact, is a literal transcript from the form presented by the statute. If as in the case of Newcum vs. Kirtley, it had *set forth the facts*, then, as a matter of law, it would have been a certificate of Batman's election, even though it had read otherwise. But, such unfortunately is not the case. It simply certifies that Thomas "was duly elected jailer." There is nothing, therefore, in the certificate upon which the judgment of the court can act.

Motions denied, and petitions dismissed with cost.

POLICE COURT.

GEORGE W. JOHNSTON, JUDGE.

MONDAY, Nov. 15.

AN ASSAULT CASE.—Mathew Cox sued out a warrant for assault against Mr. Branham, one of the wharf tavern keepers, but failing to prosecute, the case was dismissed.

STONING A HOUSE.—A couple of fast young men, (not the "three fast men,") were presented for stoning Mrs. Hundley's house. This was a supposed case of stoning, but as said Hundley failed to appear, it was supposed to be a mistake, and the party was discharged.

EXPOSURE OF PERSON.—A young man, supposed to be a printer, got tight on stark-naked whisky, or rifle brandy, which tore him so awfully that he was presented for trying to make a model artist of himself. He was fined $20.

WESTPORT, Nov. 7, 1858.

The Santa Fe mail arrived yesterday, bringing dates to the 13th October. The news is not very important. The most exciting intelligence is contained in a letter dated the 23d September, eighty miles west of the San Francisco mountains. The emigrant company, by the principal persons of whom the letter is signed, had arrived in safety at the crossing of the Rio Colorado near the Mohave villages. Shortly afterwards they were attacked by 300 Mohave Indians, while most of the white men were engaged in constructing rafts to cross and in herding their stock, when a bloody fight ensued. In this engagement the emigrants lost three men, two women and four children killed, with sixteen wounded. The Indians took all the stock, except nineteen head of cattle and eleven horses. The emigrants then retreated on the return route in the night, taking with them but two wagons, wherein to haul a small supply of provision and bedding for the women and children—the whole party at the date of the letter consisting of "123 men, 33 women, old and young, and 47 children from the two week babe up."—Soon after the retreat, starvation already staring the company in the face, they fortunately met another emigrant party, who generously shared with them their provisions and comforts. This party, out of 500 head of stock, had but 154 left—and these were in a most miserable condition.

The gold fever is still "high" along the borders, and numbers will leave homes and business in the spring to go in search of the glittering metal—The news from the gold regions is mostly favorable, but occasionally such a letter as the following throws a wet blanket on the fevered patients.—This letter was received last night by Bernard & Co., from a gentleman of respectability and position:

"BENT'S FORT, Oct. 1.—I arrived here in twenty seven days from Westport. I found all right.—The Indians are all peaceable. The gold fever is not so high here as in Westport. The 70 or 100 men that were in the neighborhood of Pike's Peak have all left—some for Santa Fe, some for the States, and some for Arkansas—starving and afoot. The most gold that was found by any one man was seven dollars."

Other accounts, of the same date, are of a different tenor, and gentlemen who *have been at Pike's Peak* and prospected the country are preparing to go out again. I shall give you all the intelligence I receive, whether favorable or unfavorable. The people want *the truth*. Yours, KAW.

SUED FOR LIBEL.—The members of the committee appointed by the Louisville Typographical Union to publish the hands in the Courier office as "rats" had suit brought against them on [illegible] last, by the hands in the employ of the Courier office. This is as it should be, as we consider the Union controlled as it is in Louisville, worse than no Union at all. Its whole movements and acts are, as we have always understood, been managed and controlled by the selfishness of the printers employed in the Louisville Journal office.—They have persisted in publishing the Courier office, and the hands who work there, as "rats," yet they are, in accordance with the second article of the constitution, no more liable to be published as rats than the "committee" themselves. *The Courier office has always paid higher wages for hands than any other office in Louisville*, yet, from the fact that the Union could not bully over W. N. Haldeman in a difficulty they had in regard to "Sunday work," some four years since, they still persist in publishing their "rat" circulars, to the private injury of their fellow craftsmen of the "stick and rule."—*Owensboro Democrat.*

A NOVEL SUIT BY A PLUCKY SCAMP.—The Dayton Journal, of yesterday, says:

There is a singular suit on the docket in the court of common pleas in this county, the like of which we do not recollect ever to have heard of before, and the absurdity of which is without parallel. It will be remembered that Jerry Nace was sent to the penitentiary some years ago for breaking into and robbing the house of Joel Estabrook, one of our most respectable citizens.—Nace has served out his time at Columbus, and now brings suit against Mr. Estabrook for wicked and malicious prosecution and imprisonment and libel, putting his damages at *fifty thousand dollars*. Nace is his own lawyer, and his petition, filed on the 11th of October, 1858, is a rich specimen of the untutored in the ordinary branches, if not in legal lore.

All Sorts of Paragraphs.

The way to make a tall man short is to ask him to lend you a hundred dollars.

"Mother," said a little boy, "I'm tired of this pug-nose; it's growing pugger and pugger every day."

A new liquor—an old toper went into a tavern in Baltimore lately, and asked for a glass of ad-va-lo-rum.

SHOEMAKERS.—It is said that one man in every eight in Massachusetts is a shoemaker. In Lynn, 5,000 persons are employed in shoe-making, and the sales in 1857 amounted to $4,000,000. In Boston, there are 213 firms engaged in the trade, doing busines to the amount of $52,000,000. In New York there are only 44 houses.

A Boston paper speaks of the presiding officer of the recent Native American Nominating Convention in the Fifth Congressional District of Massachusetts, as "*an influential Irishman.*"

"Well, Alick, how's your brother Ike getting on these times?" "Oh! first rate. Got a start in the world—married a widow with nine children." A pretty sizeable start that.

"You don't seem to know how to take me," said a vulgar fellow to a gentleman he had insulted. "Yes, I do," said the gentleman, taking him by the nose.

"The politicians have thrown me overboard," said a disappointed politician, "but I have strength enough to swim to the other side."

A RAPID SHAVING.—A great shaving match against time was recently performed in England, near Leeds. A "Professor Carrodus," attended by three latherers and five stroppers, engaged to shave seventy men in sixty minutes; and succeeded in performing the task four minutes within the specified time.

MAMMOTH CHESTNUT TREE.—A veteran chestnut tree was cut down a few days ago on the property of Col. Isaac Yoder, of Oley township, Berks county, Pa., which measured 23 feet in circumference, and 7 feet 8 inches across the stump. By the rings the tree appeared to be about 200 years old.

The number of births in England, the last year, of living children, was 657,363, and the number of deaths 390,507. The number of marriages was 59,367. Of the births, 335,541 were boys, and 321,912 girls. The number of children born out of wedlock was 42,651, or 6½ per cent. of the whole. The greatest proportion of births was in the quarter between April and July.

There was a great snake hunt in Foster, R. I., a few days since. As a Mr. Brown was walking across his field, he discovered a black snake, which led him to believe there were more. In company with two others, he dug over a small spot of earth, and took out twenty-three snakes that measured ninety-three feet.

THE CITY OF JEDDO, THE CAPITAL OF JAPAN.—The city of Jeddo is said to be without exception the largest city in the world. It contains 1,500,000 dwellings, and the unparalleled number of 5,000,000 of people. Some of the streets are 19 Japanesori's in length, which is equal to 22 English miles.

DEATH FROM A CHESTNUT SHELL.—A little daughter of a Mr. West, who resides near Cooper's Furnace, while eating chestnuts yesterday, got a piece of shell in her throat, which caused death in a very short time. The doctor was sent for, but before he reached the house the child was dead. She was about eighteen months old. Care should be taken when such little ones are given anything of that kind to eat.—*Easton Express.*

Democratic Meeting.

There will be a meeting of the Democracy of the First District, composed of the First and Second wards of the city of Louisville, at Schwind's, on Jefferson, between Clay and Hancock streets, Wednesday evening, at 8 o'clock. A general attendance is requested and expected.

The Mandamus Decision.

We publish this morning the opinion of Judge Muir, rendered yesterday, in the case of Batman against Thomas. By this decision, Thomas will retain the office of jailer of Jefferson county, given to him by those knavish 'squires, Clement and Matlack, contrary to the will of the people fairly expressed at the ballot box. He will, at least, retain the office thus usurped, unless the court of appeals shall reverse the decisian of Judge Muir. Of course Capt. Batman will be expected, by the people who elected him, to take this case to the appellate court.

The crowded state of our columns, caused by the letter list, and the length of the decision itself, prevents our making extended comments upon this decision this morning. We shall pay our respects to it hereafter. In the meantime, those who are in favor of popular sovereignty can reflect upon the conduct of those who have thus defied the will of the people, fairly expressed at the ballot box, and turned out Capt. Batman, whom the people said should have this office, and put in Bill Thomas, the chairman of the K. N. executive committee, whom the people said should not have it. If such shameful outrages upon the popular will are to be committed with impunity, and our courts of justice afford no remedy, then we see no further use of elections. Better let 'Squires Clement and Matlack fill all offices according to their sovereign will, without the expense of ballot boxes, and sheriffs, and clerks, and judges of elections.

LOUISVILLE AND PORTLAND RAILROAD LINE.—The omnibuses of this line will hereafter run to Wenzel street, every fifteen minutes. Fare, for any distance, on 'bus alone, invariably, 5 cents; on 'bus and car, conjointly, 10 cents. The 'bus will not start till the fare is deposited in the *box*. The driver is not allowed to receive or deposit the fare, under any circumstances, from in or outside passengers. Passengers depositing 10 cents will receive a car check from the driver. To prevent delays passengers will please, as far as practicable, provide themselves with "exact fare" before entering the 'bus. The patronage of the public is earnestly solicited for the portion of the line above Brook street, as upon them is dependent its success, and consequently its continuance.

SORGHO SYRUP.—We have received a specimen of sorgho syrup, manufactured by Capt. Joseph Bunker, of Henry county, who is always in the van of the agricultural army. It is a most excellent article, and may be obtained of Castleman & Torbitt.

Mr. J. H. Burth, of Spencer county, Ind., is largely engaged in the cultivation of the Chinese cane. He has given it a thorough test, and says he manufactured 800 gallons of molasses from one acre of ground, besides 120 gallons of superior vinegar, and a large quantity of starch. He has erected large establishments for the manufacture of molasses, sugar, vinegar, and starch, by steam. His boiling power is 120 gallons.

FORGERY.—On the 20th of last month, a middle aged man of dark complexion and a peculiar curl of the upper lip, obtained a hundred dollars from one of the Memphis banking institutions, on a check on the Southern Bank of Kentucky, of Russellville, Ky. It was signed M. B. Morton, cashier, and the presenter signed himself Sam'l Morton, and represented that he was the brother of Mr. M. B. Morton. On presentation, the check turned out to be a forgery. The imitation of the handwriting of Mr. Morton was most skillfully done. The forger left about the time he received the money, on the steamboat Hiawatha, and stated that he was going to New Orleans.

RESIGNATION OF E. O. NORTON.—We regret learning that E. O. Norton, who for several years has been general agent of the New Albany and Salem railroad in this city, has resigned his position. Mr. Norton has proven energetic, efficient, and active, and his absence from the office of the company in this city, will be greatly missed by all who have heretofore had connection with the company.

We express a universal wish, when we desire Mr. Norton unbounded success in whatever department of business he may hereafter engage.

ANNIVERSARY TO-NIGHT.—The fourth anniversary of the Mokuna Society, will be celebrated to-night, at Woodward Hall, New Albany. The exercises will commence, after music by the band, with an oration by E. A. Maginness, Jr., after which the following question will be discussed by Messrs. Dowling and Trueblood in the affirmative, and Messrs. Collins and Babbit in the negative: "Should England retain her East India possessions."

☞ Messrs. S. G. Henry & Co. sold at public auction, on Saturday, the four story brick warehouse and lot, on Main street, now occupied by Messrs. Guthrie, White & Co., for $25,000. It was purchased by Mr. J. M. Duncan. The smoke and packing house, and lot, on Washington street, sold for $9,900, and was bought Mr. J. D. Guthrie. The terms were one-third cash, balance in one, two and three years, with interest.

☞ Messrs. S. G. Henry & Co., request us to call special attention to the large cash sale of desirable fancy and staple winter dry goods, commencing this morning (Tuesday), at 10 o'clock, at auction rooms. At 11 o'clock they sell a small invoice of ladies' new style winter shawls, with a large invoice of gents' and ladies's winter gloves. The special attention of clothing and furnishing merchants is called, at 12 o'clock, to a lot of Louisville manufactured winter business, and over coats, with a splendid line of gents' Merino and woolen underwear; also an invoice of tapestry and water proof bags, just received.

THE FIRST SNOW.—We awoke yesterday to a realization of winter. We had the first snow of the season. But fast and furious as it fell, there was a total failure in the storm. The earth chanced to be damp and warm, and every flake melted as soon as it fell. Afterward, we had a brilliant sunshine, and last night the moon shone as fair and radiant as when Die Vernon, in the passion of her more than womanly love, acted such strange freaks in the deep mystery of the pale moon-light.

☞ We would call the attention of our readers to the latest novelty, just received from London by A. D. Mansfield, in the shape of stereoscopes, and stereoscopic views. Go and see them, at the corner of Main and Third streets.

☞ Many persons are astonished at the popularity of Hurley's quick yeast, which is readily explained. For excellence, quickness, and economy, it is beyond all competitors.

☞ Attention is called to the advertisement of a lost ring in another column. A liberal reward will be paid for it.

☞ Mr. Pratt commences his twenty-first great annual sale of books, at auction, to-night, at No. 67 Third street, near Walker's.

STEAMER FULTON CITY SUNK.

Boat and Cargo Total Loss.

TWELVE LIVES LOST.

The steamer Fulton City, Capt. Z. M. Brickell, bound from Pittsburgh for St. Louis, with a cargo of 300 tons of Pittsburgh manufactures, iron, glass, etc., while passing Buffington Island, about 5 o'clock, Thursday morning, struck a stump or root, tearing off about fifty yards of her larboard side. She went down in three minutes, floating some forty or fifty yards below where she struck, and lies in the channel, with the water up to the top of the tables in her cabin. The cabin passengers barely escaped with their lives, by clambering to the hurricane deck—the majority of whom lost all their baggage, and being asleep, saved very little of their clothing. Twelve deck passengers—two women, two children, and eight men were drowned. The Melnotte, Capt. McGowan, came along about forty-five minutes after the accident occurred, and relieved the passengers and crew from their perilous situation on the burricane roof. The stairs leading from the ladies' cabin to the hurricane roof gave way when the boat struck, rendering it difficult for the ladies to escape to the hurricane deck.—They waded through three feet water in the cabin, and were pulled out over the roof. Capt. McGowan rendered all the assistance required, and, after furnishing a breakfast for the passengers and crew, continued on the trip, bringing the sufferers here free of charge.

The Fulton City was in her second season, built at Pittsburgh, and valued at $18,000, with insurance for $10,000 in Pittsburgh offices. She was owned by her commander, Capt. Brickell, and Capt. Martin. Capt. Brickell remained at the wreck.

A passenger thus describes the accident:

Eds. Com.—Being a passenger on board of the Fulton City, on her downward trip, and being in my berth on the morning of the 12th, when she struck, I would state that about five o'clock A. M., there was a tremendous heave of the boat, and a terrible crash, as if she was tearing to pieces.—Nearly all the passengers being in their berths, were aroused, and rushed into the cabin and found the boat sinking. The screams of the ladies were heartrending. All the assistance was rendered by the officers that was possible, for the safety and comfort of the passengers, until the Melnotte came up and took us off, and tendered to the officers, crew and passengers, the bounties of their table for a morning's repast, which was thankfully received, (it being 7 o'clock,) and then brought those who wished to come, to this place, for which we tender our sincere thanks.

Failure to Connect on the U. G. Railroad—Ten Runaway Negroes Captured.

A day or two ago, one or two parties called at the office of the U. S. Marshal, in this city, to obtain information concerning the negro slaves that had run away from Mason county, Ky., a few nights previous, and were no where to be found. It was supposed they had come here, and were concealed in this vicinity; but while plans were formed for recovering the fugitives, intelligence was received of their capture at a point nearer home.

It appears that a free negro woman, residing in this State, on the Ohio river, nearly opposite Maysville, had made an arrangement with the slaves to leave their master—had, indeed, influenced their minds with a desire for freedom, and taught them the best means of escape. They were to come, at a certain hour of the night, to a certain point on the river, where the woman's husband was to be in waiting with a skiff, and bring them safely to this side—the woman herself crossing over to lend her personal aid to the enterprise.

The boat and the man were there, but the negroes missed the locality, getting about a mile below the point, and not knowing what to do in the unexpected emergency. While they were in this perplexed condition, a party of Kentuckians, who were on their trail, suddenly came upon them, took them all captives, and carried them back to their masters. The Kentuckians afterward arrested the free negress and lodged her in jail, whence, it is supposed, she will be sent to the penitentiary for life. Her husband made good his escape.

The slaves had concealed themselves, according to instructions, for nearly two days after their flight, in which they would have been perfectly successful but for their topographical blunder, by which their masters saved $8,000 or $10,000.—*Cincinnati Enquirer.*

Naval—The First Gun from the Paraguay Fleet.

ON BOARD THE FULTON, BARBADOS, Oct. 21, '58.

Hurrah for Barbados! After a brief but spirited combat with the mysterious celebrities of the deep, this brave little steamer reached anchoring quarters, off the island whose name heads this letter. We let down the "mudhooks" on the 18th, and scarcely had the staggering motion of sea-life been replaced by sober steadiness with us when the Water Witch hove in sight, and steamed alongside our own Fulton. The coal ship, Ocean Bird, which should have arrived from Boston some days ago, was not here, and our Captain was compelled to go on shore and buy some fuel for the furnaces, which he had no sooner done than the Ocean Bird arrived. We had sixty tons on board when she came in, but the remainder we will take from her. The Harriet Lane, all well, got to this port safely a short time after the arrival of the last named vessel.

To say that the first instalment on the Paraguay fleet which arrived here, "astonished the natives," is no exaggeration. I doubt whether Columbus created such a *furore* when he hove off San Salvador. The proprietors of dram shops, green groceries, restaurants, and other establishments, who frequently reap a pecuniary harvest from the jovial, sociable, and money-parting(?) peculiarities of us nauticals, are so overjoyed at this place becoming a sort of half-way house for the squadron bound south, that they have invited our officers and men to parties, balls, and ceremonies almost daily since our arrival, and actually intend sereuading us, and lighting bonfires to our honor. The 49th, 1st, and 2d regiments are stationed here. The men are mostly black, but the officers are white, and are Englishmen. The Minie rifle is in use, and the quarters for the soldiers first rate. There are fourteen American ships here. We leave next Saturday for Pernambuco and St. Catharines.

The jailer's contested election.—The decision of Judge Muir is reported at length elsewhere in our columns this morning.

The case of Stedman vs. Guthrie and others.—The argument in this case, which was mentioned in our paper, yesterday, was concluded, and the matter submitted to Judge Muir. It involves great interest, and it is hardly probable the judge will render a decision before the next term.

MARRIED,

On the 10th inst., by the Rev. Wm. Holman, Mr. WM. W. EWING to Miss SARAH CLINE, both of this city.

DIED,

Near Mobile, on the 2d inst., WILLIE, youngest son of William and Martha A. Tanner, aged four years and six months.

Willie is dead! A happy home has been rifled of its fairest sunbeam; a radiant pearl has slipped from the silver cord of affection, to be gathered to the immortal casket on high. Death's dark angel stood at the wide opened portals of the golden gate, beckoning him to enter; clothed in the spotless robes of innocence he went, and left us with hearts o'er burdened with a weary, lonesome grief; left our home desolate, to go to Him, the Holy One, who hath said: "Suffer little children to come unto me."

Friends, to ease the parting pain, whisper, "what is your loss is his gain." We think of this, but remember more his pretty, winsome ways, the kiss of his little rose-red lips, the pattering, tiny footfall and his merry, prattling voice, that was sweetest music to our ears.

Dead! dead! We cannot think of him as dead, as lying in the darkness of the tomb, the slimy death-worm trailing on his pure, sinless brow, the dreamless lids never to unlose—never again to beam with fond affection on those who loved him so. We will not think our darling is dead, only—

Resting, where no evil can sever—
In the arms of the Father forever!

In New Orleans, on the 1st inst., at 2½ A. M., Mrs. MARY PRICE, relict of Mr. George Price, Sr., aged 77 years.

Deceased was a native of Ireland, but with her husband r moved to this country some thirty years ago.—Having resided for a long time in Kentucky, as well as Louisiana, she had friends in various places to whom the intelligence of her death will be of moment.

In this city, November 15th, of appoplexy, LEONARD ROGERS, aged 56 years.

The funeral of the deceased will take place this morning, from his late residence, on Center street, near Chestnut, at 10 o'clock.

BY TELEGRAPH.

ARRIVAL OF THE PHILADELPHIA.

NEW YORK, Nov. 15.—The steamship Philadelphia arrived this morning. She brings Havana dates to the 8th inst. She encountered strong Northerly gales throughout the passage.

Sugar had declined. Whites free on board are quoted as 12a15c. Molasses inactive; clayed 2⅝.

Exchanges have declined. Bills on London 14⅝a15; on New York and Philadelphia 2⅝a4; on New Orleans 5a6 for short sight bills.

Freights are depressed; there have been no charters of American vessels for Europe effected during the week, and only one for the United States.

The British ship Starlight, which had gone ashore in the harbor of Havana, would prove a total loss.

The bark Ardennes, brig Nancy, and schooner Nancy, are still detained by the American acting Consul.

The civil war was ended by the surrender of the authorities to the rebel party. After getting all they demanded and obtaining guarantee of immunity from prosecution, the rebels reinstated the authorities.

The Americans were not attacked, owing to their firm position and declining to surrender their houses to the rebel leader.

From Washington.

WASHINGTON, Nov. 14.—A private letter received here from Guaynas, October 10th, giving an account of the revolution, confirmatory of the recently published statements, says that Captain Stone, with his surveying party, consisting of about thirty Americans, occupied three houses in the center of the town, directly between the opposing parties. If attack had been made on him he would have hoisted the American flag and fought under it, being well armed and having plenty of ammunition and a brig in the harbor mounting two 9 pound guns to retreat to, if necessary. Lieut. Maury was ready to lend assistance with his own men.

The Gouldy Tragedy.

NEW YORK, Nov. 15.—Elizabeth Carr, one of the wounded domestics of the Gouldy family, died at the city hospital yesterday. The boy, Charles Gouldy, is not expected to recover from his injuries, and Mr. Gouldy and the girl, Johanna Murphy, are in exceedingly critical condition.

Sleighing in New York.

OSWEGO, N. Y., Nov. 15.—Five inches of snow fell here last night, and the storm recommenced this morning, and snow is now falling rapidly. The sleighing is already very good.

From Havana.

CHARLESTON, Nov. 13.—The steamer Isabel, from Havana, has arrived. Sugar had declined, and molasses was neglected.

River and Weather.

CINCINNATI, Nov. 15.—Three inches snow fell last night. Weather is now clear. Thermometer 88. Riven risen 12 inches since Saturday; 8 feet 8 inches in channel.

PITTSBURGH, Nov. 16.—River 4 feet by pier mark and falling. Weather clearing up. Mercury 37. Two inches snow this morning.

We still keep a full supply of the New and Improved Scale of Chickering & Son's Grand, Parlor Grand, and Square Pianos, and as we are Cash Dealers in them, we can sell them unusually low for cash. McLEAN'S
Strengthening Cordial and Blood PURIFIER.

THE greatest remedy in the world. This Cordial is distilled from a berry known only to myself, and chemically combined with some of the most valuable medicinal roots, herbs and barks known to the mind of man, viz:—bloodroot, blackroot, wild cherry bark, yellowdock, dandelions, sarsaparilla, elder flowers, with others, producing the most infallible remedy for the restoration of health ever known.

IT IS NATURE'S OWN REMEDY, curing disease by natural laws. When taken, its healing influence is felt coursing through every vein of the body, purifying and accelerating the circulation of the blood. It neutralizes any bilious matter in the stomach, and strengthens the whole organization.

McLean's Strengthening Cordial will effectually cure Liver Complaints, Dyspepsia, Jaundice, Chronic or Nervous Debility, Diseases of the Kidneys, and all Debilities arising from a disordered Liver or Stomach. Heartburn, Inward Piles, Acidity or Sickness of the Stomach, Fullness of Blood to the Head, Dull Pain or Swimming in the Head, Palpitation of the Heart, Fullness or Weight in the Stomach, Sour Emetations, Choking or Suffocating feeling when lying down, Dryness or Yellowness of the Skin and Eyes, Night Sweats, Inward Fevers, Pain in the Small of the Back, chest or side, Sudden flushes of Heat, Depression of Spirits, Frightful Dreams, Languor, Despondency, or any Nervous Disease, Sores or Blotches on the Skin, and Fever and Ague, (or Chills and Fever.) It will also cure diseases of the Bladder and Womb, such as Seminal Weakness, Incontinence of Urine, Stranguary, Inflammation or Weakness of the Womb or Bladder, Whites, &c.

There is no Mistake About It.
This Cordial will never fail to cure any of the above diseases, if taken per directions on each bottle, in German, English and French.

Over Half a Million of Bottles
have been sold during the past six months, and in no instance has it failed in giving entire satisfaction. Who, then, will suffer weakness or debility when *McLean's Strengthening Cordial* will cure you.

To the Ladies.
Do you wish to be healthy and strong. Then go at once and get some of McLean's Strengthening Cordial. It will strengthen and invigorate your blood to flow through every vein, and the rich, rosy bloom of health to mount to your cheek again. Every bottle warranted to give satisfaction.

For Children.
We say to parents, if your children are sickly, puny, or afflicted with complaints prevalent among children, give them a small quantity of McLean's Cordial and it will make them healthy, fat and robust. Delay not a moment—try it and you will be convinced.

It is Delicious to Take.
Every country merchant should not leave the city until he had procured a supply of McLean's Strengthening Cordial. It sells rapidly, because it always cures. A liberal discount will be made to those who buy to sell again.

CAUTION.—Beware of druggists or dealers who may try to palm upon you some Bitter or Sarsaparilla trash, which they can buy cheap, by saying it is just as good.—Avoid such men. Ask for *McLean's Strengthening Cordial*, and take nothing else. It is the only remedy that will purify the blood thoroughly, and at the same time strengthen the system.

One tablespoonful taken every morning (fasting) is a certain preventative for Cholera, Chills and Fever, Yellow Fever, or any prevalent disease.

Price only $1 per bottle, or six bottles for $5.

McLean's Volcanic Oil Liniment.
The best Liniment in the world for man or beast.
Another remarkable cure performed by McLean's Volcanic Oil Liniment. Read for yourselves:
Thomas Ford, a blacksmith, living near Cass avenue, on Tenth street, had a horrible running sore on his foot. He tried various Liniments, Salves, &c., but could do it no good. He despaired of ever being able to work at his trade again, because he could not bear any weight on his foot; and by one small bottle of McLean's Volcanic Oil Liniment, he is now perfectly cured.
Rheumatism, paralysis, neuralgia, bruises, sprains, stiffness in the joints or muscles, swellings, sore throat, earache or toothache, wounds, fresh cuts, sores, burns, scalds, pains, &c., yield to the "magic" influence of this wonderful Liniment.
For Horses and Cattle it is an infallible remedy for chafes, galls, scratches, cracked heels, lameness, spavin, sweeny, splint, fistula, bruises, swellings, wounds, rattle snake bites, and various other diseases which animals are liable to from injuries or accidents.
Every Country Merchant should obtain a supply of McLean's Volcanic Oil Liniment. It sells rapidly, because it always cures.
A liberal discount will be made to merchants who buy to sell again.
☞ For sale by J. H. McLEAN, Proprietor, corner of Third and Pine streets, St. Louis, Mo. Also, for sale as above. aug17deo-ll&weowly

RICHARDSON'S
IRISH LINENS,
DAMASKS, DIAPERS, &C.
CONSUMERS of RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm,

as a guarantee of the soundness and durability of the Goods.
This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season, and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable, while purchasers can be imposed on with Goods of a worthless character.

THE RIVER yesterday had probably risen an inch, not more, with less than five feet water in the canal. On the Portland bar there were fully six feet water, and about the same channel depth at Flint island. The weather is freezing cold, and was quite cloudy last evening. In the morning a heavy snow storm prevailed for an hour or two, after which it cleared off very pleasant for a brief space, and the sun was visible for half an hour. The snow, owing to the dampness of the ground, melted away as fast as it fell.

Dispatches from Pittsburgh, yesterday morning, report the river falling, with only four feet water in the channel.

At Cincinnati, the dispatches report the river rising slowly, with a rise of about twelve inches in 24 hours. That rise has not yet reached this point, but it may be expected to-day.

RAILROADS AGAINST STEAMBOATS.—The recent railroad convention at Wheeling, we are told, determined to have no connection whatever with steamboats, in the issuing of through tickets for any line of travel. This will operate against the Lightning Line, just formed, as it will prevent the boats from ticketing passengers through from New Orleans to the East, or from the North to the South.

If the railroads are impartial in their exclusiveness, it cannot make any material difference to travellers, or retard their movements, and it cannot result to the injury of our packets, but more than likely it will redound to their advantage, as in any direct competition with other boats, the Louisville line will be sure to command the preference.

THE FULTON CITY SUNK—MANY LIVES LOST.—The Fulton City, from Pittsburgh, in charge of Capt. Brickell, was snagged and sunk at Buffington Island, in the upper Ohio, on Thursday morning last, involving the loss of many lives, and nearly all her cargo. The destruction of so much life and property gives evidence of gross incapacity or negligence on the part of the officers of the boat. For full particulars we refer to our news columns. The Fulton City was a Pittsburgh boat, owned and managed, and, no doubt, insured there.

☞ The Tiger, the long looked for Mobile packet, arrived at the wharf from Cincinnati last evening. She is a very neat, good looking boat, and will probably start south to-morrow.

The Tigress from St. Louis, we believe, met the Tiger at the wharf, where both landed together—rather a novel pair, a Tiger and a Tigress in our waters.

☞ As a coal boat tide at Pittsburgh is now anxiously looked for, we copy the following in reference to coal, from the Pittsburgh Despatch:

THE COAL TRADE.—The past season has been one of unusual activity among our coal merchants, and a larger quantity of coal is now shipped and ready to leave, we are informed, than has been the case for a number of years. It is estimated that nearly two hundred pairs are loaded and will start as soon as there is a sufficient depth of water in the channel.

☞ Business and commerce on the New Orleans levee was quite brisk on Wednesday last, and laborers were rather scarce. The boatmen found great difficulty in securing men, and were much annoyed by their crews jumping. We learn that several persons have lately been arraigned before the recorders, charged with jumping a boat, or inducing the crew to do so, who have invariably fined them about $20 apiece.

FOR NEW ORLEANS.—The splendid packet Baltic, of the new Lightning Line, is the regular packet for New Orleans this evening. She is in charge of Capt. Meekin, a thorough boatman and a veteran in the trade, who will take good care of passengers. The Baltic has a high reputation for speed and good fare, and passengers will be well cared for on her. She is now nearly full, and will start punctually at 5 o'clock, from Portland.

BLOWN INTO THE RIVER.—A darkey named Campbell, at New Orleans, the other day, accidentally exploded into the river. He was sitting on a keg of powder, when some lads set fire to it, and the consequence was, Campbell's taking a cold bath and being very much hurt. He was sent to the Charity Hospital.

☞ The boats from Pittsburgh continue to come in, all well freighted for the stage of water, the list yesterday including five, nearly all bound for St Louis.

Owing to the inclement weather yesterday, shipments were but light, and most of the boats advertised to leave laid over till to day.

FOR CINCINNATI.—The Telegraph No. 3, the fleet champion of the upper waters, with cabin accommodations for 300 passengers, is the packet for Cincinnati and the East to-day. She starts at 1 o'clock, in charge of Capt. Hildreth, and will take passengers through at locomotive speed.
